[REDACTED] a Soviet captain who is employed in Karlshorst that there is mass production of a new long-range bomber type in the U.S.S.R. This long-range bomber is said to have a flying weight of 10 tons, including 2.5 tons of armament and armor. It has a range of 1,800 km with a useful load of 3 tons. The plane is to be powered by a turbo-prop engine. \*
